YUNCÁN

- Caravan | Reduction of family economy burden
- Environmental fair with schools in the town of Paucartambo.

QUITARACSA

- Caravan | Reduction of family economy burden

## COMMITTEE ON ENVIRONMENTAL MONITORING AND CITIZEN SURVEILLANCE

**Environmental training and awareness**

- 60 inhabitants of the city of Ilo (Moquegua) were trained in environmental monitoring as part of the actions of the Participatory Environmental Monitoring and Surveillance Committees

**100% : of operating areas  
with an integrated  
environmental  
management plan  
developed in conjunction  
with their Stakeholders.**

## RESULTS

**Building capacity among local environmental committee members.**

- 100% of the members trained on the concepts of the Environmental Impact Study and how to make the measurements and analyze them.
- Every two years the committee will be partially renewed, so with the support of ENGIE there will be more and more leaders trained in environmental issues and their claims will be supported, if any.
- This will prevent leaders to be manipulated by interest groups.
- A bond has been created between the company and the community that facilitates private investment and empowers the community.
- Until 2019, more than 20 trainings have been provided between talks, workshops, internships, among others.

## AWARENESS CAMPAIGN FOR THE CARE OF THE ENVIRONMENT

- Awareness campaigns: promote that school students in our areas of operation understand caring for the environment.
- Energy Race "zero carbon": Annual race organized by ENGIE in Ilo, in coordination with educational centers, the local Educational Management Unit (UGEL), among other allies.
  - Promote a healthy life and care for the environment among all schoolchildren in the region.
- Cleaning Campaign "In Harmony with Our Beaches".
  - Improve the sanitary conditions of the beaches of Chilca and Ilo.

## RESULTS

- 956 students benefited from the campaigns.
- 1,800 participants among the more than 30 schools and 13 metric tons of CO2 equivalent offset.
- More than 10,000 residents benefited from beach cleaning.
